ANNUAL INDEX

Engineering Education

Volume 73, Numbers 1-8, 1982-83

The page numbers in this index refer to the eight issues of *Engineering Education* for 1982-83.

1-128	October	331-408	February
129-206	November	409-696	March
207-268	December	697-758	April
269-330	January	759-820	May

Note: The March issue, devoted to Engineering Research and Graduate Study, contains its own detailed index.

In this index, **boldface** type indicates subject headings; *italics* indicate authors (and titles of books reviewed); and titles of articles and departments appear in regular type. Page numbers are explained above.

A

AAES: 147
ABET: 142-143, 163-164, 182, 770, 777, 794, 799
accreditation: 181, 770, 776-783
adjunct faculty: 180-182, 794
Adjunct Faculty: Problem or Panacea?, 180
administration: 216, 219, 780
Advantages of Using the Weighted Mean Concept, 242
advisers, academic: 742-745
Aids for Educators, 204, 267, 328, 406, 756, 815
Alexander, Bob, 166
AMCEE: 389
Amchin, H.K., 762
anxiety, student: 724-730, 742-745

For prospective graduate students

Advancing by Degrees

ASEE has reprinted the popular "Advancing by Degrees" after the first edition sold out last fall. The attractive 16-page booklet is a much-needed factual guide to graduate study for engineers. It answers many questions students are likely to ask, such as:

- What *is* research?
- What about salaries—will my degree make a difference?
- What is the best time to go to graduate school?

Sponsored by ASEE's Engineering Deans Council, the booklet was revised in 1981 and updated in 1982. Single copies are available without charge; 2-99 copies, 75¢ each; 100 or more copies, 60¢ each. All orders of $5 or less must be prepaid or incur a billing charge.
